

Director's Instruction

Number 05-003

Title: Enhanced Control of Improvised Nuclear Device (IND) Information

Enhanced Control of Improvised Nuclear Device (IND) Information

Reviewed by the Policy Office on November 9, 2004

Issued by the Director on November 16, 2004

Summary:

This instruction directs LANL employees how to enhance control of information concerning Improvised Nuclear Devices (INDs). Controls beyond those normally implemented for Secret/Restricted Data will be implemented under this instruction until IND-information is covered by additional DOE classification guidance.

This document is marked Official Use Only. Please contact the office of the Deputy Director for National Security, Los Alamos National Laboratory, for access to a copy of the document. Department of Energy review is required before public release.

This instruction will remain in effect until further notice.
